EXECUTIVE SUMMARY

Overall Assessment

Fresh Coast AI has a **strong foundation** for a pre-launch site. The site structure is clean, content quality is high, and structured data is well-implemented across most pages. The primary areas for improvement are: title tag length on several blog posts, missing pages from the sitemap (now addressable with the new footer), thin content on industry pages, and the site's lack of indexation history (launching Tuesday).

Biggest Strength: Content quality and topical authority. Your blog covers the full buyer journey from "Is my business ready for AI?" through "How to hire a consultant" to "What does it cost?" — a textbook content funnel.

Top 3 Priorities:

- Fix title tags exceeding 60 characters (5 pages) — these get truncated in search results
- Expand thin industry pages from ~380 words to 800+ words with use cases and local context
- Submit sitemap to Google Search Console on launch day and request indexing of priority pages

KEYWORD RESEARCH

Keyword Opportunity Table

Keywords sorted by opportunity score. Difficulty estimated from SERP competition analysis. For precise volume and difficulty data, connect an SEO tool like Ahrefs or Semrush.

Keyword	Difficulty	Opportunity	Intent	Your Coverage	Recommended Action
ai consulting small business	Moderate	HIGH	Commercial	Homepage + blog	Strengthen internal linking
ai consulting cost 2026	Moderate	HIGH	Commercial	Blog post exists	Update with fresh data
ai readiness assessment	Easy	HIGH	Commercial	Assessment page	Add long-form guide
milwaukee ai consulting	Easy	HIGH	Local	Dedicated page	Build local backlinks
ai consultant for small business	Moderate	HIGH	Commercial	Services page	Create comparison page
how to hire an ai consultant	Moderate	HIGH	Informational	Blog post exists	Already ranking target
ai consulting wisconsin	Easy	HIGH	Local	Dedicated page	Add case studies
ai governance small business	Easy	HIGH	Informational	Blog post exists	Expand with checklist
ai implementation roadmap	Moderate	MEDIUM	Informational	Partial (How We Work)	Create dedicated guide
ai for manufacturers midwest	Easy	MEDIUM	Commercial	Blog + industry page	Merge & strengthen

madison ai consulting	Easy	MEDIUM	Local	Dedicated page	Add local testimonials
ai for staffing agencies	Easy	MEDIUM	Commercial	Industry page	Expand content depth
ai for property management	Easy	MEDIUM	Commercial	Industry page	Expand content depth
small business ai tools 2026	Hard	MEDIUM	Informational	Blog (vendor landscape)	Create tools roundup
ai change management	Moderate	MEDIUM	Informational	No dedicated page	Write blog post
ai consulting pricing transparent	Easy	MEDIUM	Commercial	Blog post exists	Build backlinks
green bay ai consulting	Easy	MEDIUM	Local	Dedicated page	Local directory listings
ai training workshops small business	Easy	LOW	Commercial	Services page mention	Create dedicated page
fractional chief ai officer	Moderate	LOW	Commercial	No page	Consider blog post
ai vendor selection guide	Moderate	LOW	Informational	Blog post exists	Expand into pillar

mcp model context protocol business	Easy	LOW	Informational	About page mention	Technical blog post
--	------	------------	---------------	--------------------	---------------------

On-Page Issues

Page	Issue	Severity	Recommended Fix
blog/how-to-hire-an-ai-consultant.html	Title tag 81 chars (max 60)	HIGH	Shorten to: "How to Hire an AI Consultant Fresh Coast AI" (53 chars)
blog/ai-for-midwest-manufacturers.html	Title tag 72 chars (max 60)	HIGH	Shorten to: "AI for Midwest Manufacturers Fresh Coast AI" (53 chars)
blog/ai-consulting-costs-2026.html	Title tag 63 chars (max 60)	MEDIUM	Shorten to: "AI Consulting Costs in 2026 Fresh Coast AI" (52 chars)
deliverables/governance-framework.html	Title tag 61 chars (max 60)	LOW	Remove em-dash: "AI Governance Framework Fresh Coast AI" (52 chars)
deliverables/implementation-blueprint.html	Title tag 62 chars (max 60)	LOW	Shorten to: "Implementation Blueprint Fresh Coast AI" (49 chars)
blog/why-we-publish-our-pricing.html	Meta description 178 chars (max 160)	MEDIUM	Trim to 155 chars. Cut "depending on scope" clause.
blog/ai-consulting-costs-2026.html	Meta description 161 chars (max 160)	LOW	Trim by 1 char — minor but easy fix.
industries/manufacturing.html	Thin content (~448 words)	MEDIUM	Expand to 800+ words with use cases, ROI examples, local context.
industries/staffing.html	Thin content (~388 words)	MEDIUM	Expand to 800+ words with specific AI workflows for recruiters.
industries/trades.html	Thin content (~383 words)	MEDIUM	Expand to 800+ words with scheduling, dispatch, estimating examples.
industries/property-management.html	Thin content (~376 words)	MEDIUM	Expand to 800+ words with tenant comms, maintenance, lease examples.
industries/professional-services.html	Thin content (~420 words)	MEDIUM	Expand to 800+ words with proposal generation, billing examples.
404.html	No canonical tag	LOW	Add canonical (self-referencing) or noindex meta tag.
404.html	No OG tags	LOW	Add basic OG tags for social sharing fallback.
All industry pages	H1 tags are creative, not keyword-rich	MEDIUM	Consider adding keyword in subtitle or first paragraph instead.

Content Gap Recommendations

AI Implementation Case Studies

Why it matters: Competitors lead with proof. You have testimonials but no detailed case studies showing before/after metrics.

Format: Dedicated case study pages • **Priority:** HIGH • **Effort:** Moderate (half day each)

AI Tools Comparison / Roundup

Why it matters: "Best AI tools for small business" is a high-volume query. Your vendor landscape post is close but doesn't compare specific tools.

Format: Comparison blog post with table • **Priority:** HIGH • **Effort:** Substantial (1-2 days)

AI ROI Calculator / Interactive Tool

Why it matters: Interactive content earns backlinks. Competitors like Scalable Solutions don't have one. Your assessment page is a start.

Format: Interactive HTML tool • **Priority:** MEDIUM • **Effort:** Substantial (1-2 days)

AI Change Management Guide

Why it matters: Your core differentiator (people-first approach) has no dedicated content. "AI change management" is an underserved keyword.

Format: Pillar blog post (2,000+ words) • **Priority:** HIGH • **Effort:** Moderate (half day)

Industry-Specific AI Workflows

Why it matters: Industry pages are thin. Each needs specific workflow examples: "How AI automates HVAC dispatch" etc.

Format: Expand existing industry pages • **Priority:** HIGH • **Effort:** Moderate (half day per page)

AI Glossary for Business Leaders

Why it matters: Glossary pages rank for dozens of long-tail queries. No competitor has a good one for non-technical audiences.

Format: Standalone glossary page • **Priority:** MEDIUM • **Effort:** Moderate (half day)

"What Happens After" Content

Why it matters: You cover the buyer journey well but lack post-engagement content. "What does AI governance look like 6 months in?"

Format: Blog post series • **Priority:** LOW • **Effort:** Quick win (1-2 hours each)

Local Milwaukee / Wisconsin Business Content

Why it matters: Local SEO needs local context. Blog posts mentioning specific Milwaukee/Wisconsin businesses or events would boost geo-relevance.

Format: Blog posts with local angle • **Priority:** MEDIUM • **Effort:** Quick win (1-2 hours each)

Technical SEO Checklist

Check	Status	Details
HTTPS	PASS	Site uses HTTPS via Netlify. No mixed content detected.
robots.txt	PASS	Present and correctly configured. Points to sitemap.
XML Sitemap	WARNING	Present with 37 URLs. Missing: blog/index.html as a page. Dates should be updated to reflect today's changes.
Canonical Tags	PASS	Present on all pages except 404.html (acceptable).
Open Graph Tags	PASS	Present on all pages except 404.html.
Structured Data (Schema)	PASS	Strong coverage: LocalBusiness, Service, FAQ, Article, BreadcrumbList across pages. Well above average for a site this size.
Mobile Viewport	PASS	Viewport meta tag present on all pages. Responsive breakpoints at 900px, 700px, 600px, 500px.
Image Optimization	PASS	WebP with JPEG fallbacks via elements. All images under 500KB. Alt text on all images.
Page Speed (estimated)	PASS	No external CSS/JS files. All styles inline. No render-blocking resources. Minimal JavaScript. Should score 90+ on Lighthouse.
Favicon	PASS	favicon.png and apple-touch-icon.png present.
Internal Linking	PASS	New footer adds 15+ internal links per page. Average 28 internal links per page.
URL Structure	PASS	Clean, readable URLs with keywords. Logical directory structure (blog/, industries/, deliverables/).
Broken Links	WARNING	Cannot verify externally from VM. Run Screaming Frog or broken link checker after launch.
Core Web Vitals	WARNING	No field data yet (pre-launch). Architecture suggests strong LCP and CLS. Verify with PageSpeed Insights after launch.
Duplicate Content	PASS	No duplicate title tags or meta descriptions detected across all 41 pages.
Heading Hierarchy	PASS	Every page has exactly 1 H1. H2/H3 structure is logical throughout.
Hreflang / i18n	N/A	English-only site serving US market. Not needed.
404 Page	PASS	Custom 404 page with navigation back to site. Good UX.

COMPETITOR ANALYSIS

Competitor SEO Comparison

Three closest competitors identified for the Milwaukee / Wisconsin AI consulting SMB market. Comparison based on web research; precise domain authority requires Ahrefs or Semrush.

Dimension	Fresh Coast AI	Scalable Solutions	Patrik Neuwirth	Opinosis Analytics
Location	Milwaukee, WI	Black Earth, WI	Milwaukee, WI	Milwaukee, WI
Target Market	SMBs 5-250 employees	Mid-market SMBs	Local small businesses	Enterprise + SMB
Published Pages	41	~15-20	~8-10	~25-30
Blog Posts	11 (+ 6 pending)	~3-5	~2-3	~10-15
Industry Pages	5 dedicated pages	None found	None found	None found
Regional/Local Pages	4 (MKE, MAD, GB, WI)	1 (general WI)	1 (Milwaukee)	1 (Milwaukee)
Pricing Transparency	Full public pricing	None published	None published	None published
Structured Data	Strong (5+ schema types)	Basic	Minimal	Moderate
Content Depth	High (1,500-2,700 words)	Low-moderate	Low	Moderate
Deliverable Samples	6 sample deliverables	None found	None found	None found
Publishing Frequency	Biweekly	Irregular	Rare	Monthly
Differentiator	People-first, fixed-fee	ML/data science focus	In-person workshops	Analytics/NLP focus

Key Takeaway: Fresh Coast AI is launching with significantly more content, better technical SEO, and stronger topical coverage than all three local competitors. The pricing transparency and deliverable samples are unique differentiators that no competitor offers. Your main challenge is building domain authority and backlinks — which comes with time and launch promotion.

ACTION PLAN

Prioritized Action Plan

Quick Wins — Do This Week (Launch Week)

1. Fix 5 title tags exceeding 60 characters

Impact: **HIGH** • Effort: 30 min • Prevents truncation in Google search results. Immediate SEO impact.

2. Fix 2 meta descriptions exceeding 160 characters

Impact: **MEDIUM** • Effort: 15 min • Prevents truncation in SERPs.

3. Submit sitemap to Google Search Console

Impact: **CRITICAL** • Effort: 10 min • Essential for new site indexing. Request indexing on homepage, services, and top blog posts.

4. Set up Google Search Console + Bing Webmaster Tools

Impact: **CRITICAL** • Effort: 20 min • Needed for monitoring indexation, impressions, and click-through rates.

5. Update sitemap.xml lastmod dates to today

Impact: **MEDIUM** • Effort: 10 min • Signals freshness to search engines on launch day.

6. Set up Google Business Profile

Impact: **HIGH** • Effort: 30 min • Critical for local SEO. Claim business, add photos, link to website.

7. Submit to local directories

Impact: **MEDIUM** • Effort: 1 hour • BBB, Milwaukee Chamber, Wisconsin SBDC. Builds local authority.

8. Verify all internal links work

Impact: **HIGH** • Effort: 30 min • Run Screaming Frog or similar after deploying to production.

9. Set up Google Analytics 4

Impact: **HIGH** • Effort: 20 min • Start collecting traffic data from day one.

Strategic Investments — Plan for Q2 2026

1. Expand all 5 industry pages to 800+ words

Impact: **HIGH** • Effort: 2-3 days total • Add specific AI workflow examples, ROI projections, and local context per industry. Directly targets commercial keywords.

2. Write AI Change Management pillar post

Impact: **HIGH** • Effort: Half day • Your core differentiator has no dedicated content. Target "AI change management small business" keyword.

3. Create 2-3 detailed case studies

Impact: **HIGH** • Effort: 1-2 days • Jeff Kult website rebuild is a start. Add metrics, timeline, before/after. Case studies earn backlinks and convert prospects.

4. Build AI tools comparison page

Impact: **MEDIUM** • Effort: 1-2 days • Compare 10-15 AI tools by category (meeting notes, document generation, etc.). High search volume, link-worthy content.

5. Launch link-building campaign

Impact: **HIGH** • Effort: Ongoing • Guest posts on Milwaukee Biz Journal, Wisconsin SBDC blog. Speak at local chambers. Each quality backlink compounds.

6. Create AI glossary for business leaders

Impact: **MEDIUM** • Effort: Half day • Ranks for dozens of long-tail "what is [AI term]" queries. Low competition, high cumulative traffic.

7. Publish 6 pending blog posts

Impact: **MEDIUM** • Effort: 1-2 weeks • AI for event planners, HVAC, trucking, staffing, veterinary, property managers. Broadens keyword footprint significantly.

8. Add FAQ schema to services and how-we-work pages

Impact: **MEDIUM** • Effort: 1 hour • You already have FAQ schema on some pages. Extend to all pages with Q&A; content for rich snippet eligibility.

9. Build local content with Milwaukee/Wisconsin angle

Impact: **MEDIUM** • Effort: Ongoing • Blog posts mentioning local businesses, events, or economic trends. Signals geo-relevance to Google.
